REVIEWERS FOR VOLUME 44, 1980

The editorial staff acknowledges the assistance of the 501 reviewers named below. Collectively, they contributed about 3,280 hours (82 40-hour weeks) of their time to The Wildlife Society. On average they spent 5.3 hours reviewing each of about 320 manuscripts, of which 166 were published in 1980. Their judgments mainly determined which manuscripts were accepted and which ones were withdrawn by the authors or rejected by the editorial staff.
